

Warrantywise warranty plan

car

Welcome to Warrantywise

the UK's best used car warranty plan.

By selecting our warranty plan, you can be confident you have made the right decision and joined the leading provider in the UK market.

We pride ourselves on our commitment to customer satisfaction. Our warranty plan was meticulously designed from the ground up in 2007 by Quentin Willson, and since then we have actively listened to customer feedback and continuously refined and improved it over the years.

This unique warranty operates on a discretionary basis, with master mechanic Edd China appointed as expert arbiter. This means Edd China has the ultimate authority when it comes to repairs and can overturn decision if they appear unfair or unreasonable. We take pride in treating our customers with utmost discretion, flexibility, understanding, courtesy, and fairness. Our commitment to quick and efficient responses has garnered high customer satisfaction scores and resulted in positive testimonials from delighted customers.

It is important to note that no warranty can cover every possible scenario, we do not provide cover for worn-out parts or components that have reached the end of their normal operating life. This limitation applies to every warranty, including ours. We encourage you to carefully review the sections in our terms and conditions regarding "What Your Plan Does Not Include" and the list of "Significant Exclusions." Please bear in mind that no warranty, regardless of its nature, will cover worn-out tires, brakes, clutches, minor fluid leaks, minor rattles, seized, rusty, or corroded parts, as well as rubber components and pipes that deteriorate over time.

Each cover level has its own clearly outlined pages, providing you with the peace of mind that if an important listed part unexpectedly breaks, fails, or stops working prematurely, under our discretionary terms we will cover it.

Here are key points to keep in mind:

1. Cover levels

We offer five levels of cover, based on a car's age and mileage. Within the first 30 days, you may have the option to upgrade certain aspects of the cover at your own expense. Be sure to select the appropriate cover level, especially considering the garage's hourly labour rate. Opting for the cheapest rate could prove to be a false economy.

2. Read Your Plan terms

Although it may be tedious, we strongly encourage you to read the fine print. We understand that reviewing all the information or misplacing the warranty booklet can be challenging, but we have made everything easily accessible on our website for convenient reference at any time, day, or night. We also provide a user-friendly mobile website for easy access on small handheld devices. It is crucial that you fully comprehend the terms and conditions of your warranty. If you have any doubts or questions, please do not hesitate to contact us.

3. Repairs Authorisation

Before proceeding with any repairs, please remember to obtain authorisation from us. Failure to do so may result in us being unable to cover the cost of the repairs.

4. Vehicle Servicing

Servicing your vehicle is of utmost importance. We require you to maintain your vehicle to the manufacturer's recommended maintenance intervals based on time and mileage.

5. Cancellation

You have 30 days to cancel your warranty if you are not satisfied. This timeframe should provide ample opportunity for you to thoroughly review the necessary terms and conditions.

A10. Contribution

An agreed monetary contribution to be paid by you towards the value of each repair which will be shown in Your Plan Schedule.

A11. Failure Due to Wear and Tear

"The premature failure of a part due to wear and tear is covered."

This is where a mechanical and/or electrical part suddenly and unexpectedly develops a premature fault resulting in the part failing before your vehicle reaches 10 years of age or 100,000 miles from the date of manufacture which, if not repaired or replaced, will more than likely lead to a breakdown of the part before the expiry of Your Plan. Wear and tear is when a single part prematurely fails before it is expected to. This does not mean that worn out parts that have come to the end of their expected operating lives due to age and mileage will be suffering from wear and tear.

Examples of Failure due to Premature Wear and Tear

- A 4-cylinder car usually has 4 fuel injectors. If only one of these injectors fails, however the other 3 are working as expected, then this is likely to be a premature failure due to wear and tear.
- If an alternator ceases to charge as expected, this would be considered a premature electrical failure due to wear and tear.

- (iii) A vehicle has 4 shock absorbers, if one suffers a failure, however the other 3 are working as expected, then this is likely to be a premature failure due to wear and tear.

Example of Worn Out – End of Life

- (i) If all 4 injectors are suffering from the same condition, then this would not be considered failure due to wear and tear. However, it would be considered end of life and worn which would not be covered.
- (ii) If the alternator is noisy and/or whining but still charging, this would not be considered failure due to wear and tear. However, it would be considered end of life and worn which would not be covered.
- (iii) If more than one shock absorber is suffering from the same condition, then this would not be considered failure due to wear and tear. However, it would be considered end of life and worn which would not be covered.

A12. Geographical Limits

The area in which Your Plan is effective which includes; Great Britain, Northern Ireland, Isle of Man and Channel Islands. Your main residence must be within this area.

A13. History Checks

Independent verification of your Vehicle's mileage, market value, MoT and to determine if it's been exported, imported, declared an insurance write off or a stolen vehicle. These checks are conducted at the time you take out the warranty at our own cost using data from the DVLA, DVSA, Police and from independent companies. This information is constantly updated, is not exhaustive and may alter at any future date, therefore we cannot guarantee total accuracy at any point in time.

A14. Independent Vehicle Examiner

An independent expert witness (not a member of Warrantywise's staff) qualified in motor vehicle engineering theory and practice, with specific knowledge and expertise relevant to Your Vehicle and the Part being examined.

A15. Issue Date

The date you entered into (purchased) Your Plan

(Mechanical Parts have contact, movement and function. Electrical Parts are powered by electricity. Unless specifically mentioned, wiring, connectors, pipes, hoses and rubber bushes are not included).

A23. Parts Cost

For repairs at a franchised main dealer, charged within the Labour rate you have selected, we will pay the manufacturer's list price of Parts in all other cases, we will not pay more than the available motor factor recommended retail price of OE Parts, including VAT. You may change or upgrade Your Plan within the first 30 days. Contact our team on 01254 355100 or email upgrades@warrantywise.co.uk

Your Plan will not become effective until we have carried out these checks, received your current payment and

confirmed your warranty by the issue of Your Plan Schedule. Within the Warrantywise Warranty Plan are three main areas of cover. These are;

- Benefits – See Section B.
- Warranty Plan Levels – See Section C.
- Additions – See Section D.

Section B

Benefits included within your warranty plan.

From day one and during the period of Your Plan – Your Plan is designed to pay for:

B2. Breakdown

This is where a mechanical or electrical Part suddenly and unexpectedly stops working and requires immediate repair or replacement before it will work again.

- B3.** After both 30 days and 1,000 miles have passed. During the period of Your Plan and until your vehicle reaches 10 years or 100,000 miles (whichever occurs first) Your Plan also provides for Failure Due to Wear and Tear - This is where a mechanical Part suddenly and unexpectedly, develops a premature fault resulting in the Part failing before your Vehicle reaches 10 years of age or 100,000 miles, which if not repaired or replaced, will more than likely lead to a Breakdown of the Part before the expiry of Your Plan.

- (i) Whether a Part has suffered a Failure due to Wear and Tear is determined by us comparing the extent of wear on the failed Part with other similar, connected or associated Parts, which we would expect to be dissimilar. This is in contrast to those which appear to have comparable wear which are Worn Out Parts (see A36).

- (ii) Example: The gearbox of a car contains many shafts, bearings, gears and hubs etc. With no manufacturing defects and correct use and servicing, we would expect that most gearboxes will last for up to 10 years or 100,000 miles without any major problems. If a single shaft inside the gearbox breaks, then clearly that's a failure, which is sudden and unexpected and would be covered. If the breakage of the gearbox shaft causes damage to other parts inside the gearbox then this would be 'consequential damage' and all the damaged parts would be covered. Another scenario is when something inside the gearbox starts making a noticeable noise, and upon examination we see that one bearing is worn and close to breaking up, but all the other bearings, shafts,

gears and hubs are OK and unaffected. This would be a 'sudden and unexpected failure of a part due to wear & tear', which we would accept. If however all the bearings, shafts and hubs inside the gearbox are significantly worn and are all contributing to the noise, then this would be a 'worn out' gearbox and not covered.

- B4.** Warrantywise will pay the Repair Cost following a Breakdown or Failure Due to Wear and Tear of a Part of your Vehicle, within the Geographical Limits, outside the supplier's or manufacturer's warranty period, during the Period of Your Plan, depending upon the Level of Your Plan and subject to the further conditions and exclusions set out in these terms:

- B5.** If your Vehicle suffers a Breakdown or Failure Due to Wear and Tear of any covered Part, we will at our discretion decide whether to pay the appropriate Repair Cost (see General Conditions J25 which explains our discretion). To do this we will decide whether to inspect your Vehicle and then whether or not to approve a repair of the Part or authorise a replacement and then if we decide it is appropriate to do so in either case pay the appropriate

- B6.** Your Plan will pay for diagnostic or dismantling work only if assessed by us as being reasonable within the Repair Cost of a valid repair. It is your responsibility to authorise (at your own expense) any diagnostic or dismantling of any part of your Vehicle. If in doubt, ask your Repairer to check with us before starting any diagnostic or dismantling work.

- B7.** We will pay the Repair Cost of a valid repair up to the Single Repair Limit and within your Vehicle Value at Your Plan Start Date.

B8. There is no limit to the number of valid repairs that can be approved during the Period of Your Plan within the Single Repair Limit up to your Vehicle Value.

B9. There is no Contribution automatically required from you, but you can decide to include a voluntary Contribution within Your Plan, which will be shown in Your Plan Schedule.

B10. There is no Contribution required from you for improving the condition or value of your Vehicle (betterment) where a replacement Part has this effect.

B11. Your Plan includes cover against Consequential Failure. (Please see J6 which explains this).

B12. Any alterations you make to increase the Level of Your Plan will not come into effect until 30 days or 1,000 miles (whichever occurs first) from the date of change have elapsed.

B13. Significant Exclusions

(i) **Limits on Failure Due to Wear and Tear** - Unless you are following on after a manufacturer's warranty or previous Warrantywise Plan, the benefit of Failure Due to Wear and Tear will begin after both 30 days and 1,000 miles have passed and in all cases, will end should your vehicle reach 10 years or 100,000 miles (whichever occurs first).

(ii) **Vehicle Age and Mileage Limits** - All the benefits of Your Plan will end should your Vehicle reach 12 years of age or 120,000 miles, unless you are on our Bronze or Silver levels of cover, in which instance all the benefits of Your Plan will end should your Vehicle reach 15 years of age or 150,000 from the date of manufacture, without rebate, even if during the Period of Your Plan.

(iii) **Servicing** - If you are unable to provide proof of the correct previous servicing of your Vehicle, we may decline any repair request you make in relation to any serviceable Part. (see G1 - G7).

(iv) **Worn Out Parts** - These are Parts which due to prolonged use over time and/or a lack of correct routine maintenance, abuse and/or neglect, are worn out and at the end of their expected serviceable

life. They will require repair or replacement at your own cost.

(v) **Manufacturing Faults** - The Breakdown or Failure Due to Wear and Tear of a Part of your Vehicle with inherent, common and regularly occurring manufacturing faults which are well publicised (such as Google Internet search) together with any Part requiring replacement due to it being updated, superseded, re-designed or recalled by the manufacturer where you have no proof that the Part has been previously replaced.

European (EU) Protection

B14. Important

The full benefits of Your Plan are valid while your Vehicle is outside the Geographical Limits, within the Period of Your Plan, provided you accept the following: Any repair request you make must be in a country that is a current member of the European Union (EU). Your Plan will not pay more than the Labour rate quoted on Your Plan Schedule or the equivalent United Kingdom manufacturer's Labour times and list prices for Parts on the date of any valid repair. You will have to pay the Repairer and we will reimburse you any valid Repair Cost in Pounds Sterling upon receipt of a Repairers invoice made out jointly in 'your name' C/o Warrantywise UK Limited, The Rocket Centre, 3 Trident Way, Blackburn, BB1 3NU.

(i) **Important** - You must retain any replaced Parts for our examination or arrange to post them to us. If this is not possible, make a photographic record showing evidence of any Parts subject to a repair. Provide copies of all related repair estimates, receipts, hire agreements and booking forms showing precise details of the repair provided and dates as we may reasonably expect in order to validate any repair adequate proof of Breakdown or Failure Due to Wear and Tear will be required.

(ii) If you believe you are likely to incur any of the above expenses you should notify us at the time or at your earliest opportunity thereafter (by telephone or email) as we will not include such additional expenses at a later date after a repair has been validated. Contact our Repairs Office on 01254 355102 as soon as possible or email

the details to: repairs@warrantywise.co.uk, within 7 days. (Please also see Out Of Office Hours Repairs section I).

- (iii) Significant Exclusions – We will not be liable for any of the above expenses if your request for Repair Cost is declined

by us under the terms of Your Plan. Your Plan will not pay for any accident or criminal damage, storage or release charges. For a full list of exclusions please also see: What Your Plan does NOT include, section F.

The power indicator lamp does not indicate a defect with the Drive (EV) Battery but merely indicates a minimum limit to the level of charge.

If the power indicator lamp remains illuminated after recharging is complete, then refer to your Servicing Handbook. Repeated use of a rapid charge facility will lead to enhanced Drive (EV) Battery degradation.

Servicing Your Vehicle.

G1. Vehicle Servicing

You are required to ensure the correct servicing of your Vehicle:

- (i) at your own cost and expense
- (ii) using any VAT registered garage, a franchised main dealer or an Approved Repairer
- (iii) following the manufacturer's recommended service schedule and intervals (or earlier) as detailed in your Vehicle handbook. If you do not follow the manufacturer's service schedule then you will be required to service your Vehicle at intervals of 12 months or 10,000 miles, whichever occurs first
- (iv) using only manufacturer's service parts or OE Parts and importantly the correct type and grade of lubricants and fluids as specified by the manufacturer.

G2. Important - If your vehicle has an incomplete (or no) previous service history it is important to have your Vehicle servicing brought fully up to date immediately. If you are unable to provide proof of the correct previous servicing of your Vehicle, we may at our discretion decline any repair request you make in relation to any serviceable Part.

G3. Time Period - When your Vehicle is due for Servicing - You are allowed 1,000 miles either side of the service mileage or 30 days either side of the service period, without any further allowance.

G4. Proof of Servicing - We will accept as proof of service details held within the Vehicles integrated information centre/ dated stamped entries in your Vehicle's service book by a franchised main dealer or an Approved Repairer. If not, you will be required to provide dated service VAT receipts and/or service schedules showing exactly which service parts were checked, replaced or otherwise attended to on the last service date applicable to the Part in question.

G5. Incorrect Mileage Reading - We will not meet any Repair Cost if your Vehicle's mileage/distance reading at the time and date of any repair request is not supported by its previous service history and/or cannot be verified as correct or relied upon to be an accurate representation of your Vehicle's total mileage. If this occurs Your Plan will be cancelled and all charges refunded less any previously authorised Repair Costs, Independent Vehicle Examiner costs and the Cancellation Fee.

G6. Service Parts Included - Your Plan will only pay for service items (such as lubricants and filters) which are required in order to complete repairs under a valid repair. However, if your Vehicle is within 30 days and 1,000 miles of its next service you will be required to pay the cost of such service items.

G7. Significant Exclusions - The Failure Due to Wear and Tear of any Part which an Independent Vehicle Examiner believes is due (in whole or in part) to a lack of previous servicing as recommended by the manufacturer. For a full list of exclusions Please see: What Your Plan

Section H

Repairs Procedure.

- H1. Repairs Procedure** – This section sets out what you should do if your Vehicle needs a repair. It is important that you follow this procedure. Should you decide to give permission to a Repairer / Approved Repairer to commence or complete repair work, without a Repair Number being obtained, we will not meet your Repair Cost. This is because you have denied us our right to fully investigate your repair and/or inspect your Vehicle and determine any faults.

Note:

The Repairs Office opening hours are Monday to Friday 9am to 5pm, telephone 01254 355102. If your repairs are needed outside these hours, or while outside the Geographical Limits, please refer to Section I for Out of Office Hours Repairs.

- H2. Report Any Suspected Fault In 7 Days:** If you believe that any fault may be the subject of a repair under the terms of Your Plan (even if you are not sure) you should report the fault by telephone or email to us as soon as practicable. Any failure to report any suspected Breakdown or Failure Due to Wear and Tear within 7 days may result in the repair being declined. To report a suspected fault please call our Repairs Office on 01254 355102 and speak to a member of our Repairs team, or email repairs@warrantywise.co.uk quoting your vehicle registration and plan number.

- H3. Important** – You should stop driving your Vehicle immediately if you become aware that there is a dashboard warning showing a fault. You should also stop if there is any other indication such as an unusual vibration or noise, leaking water, oil or steam. If you aggravate any Breakdown or Failure Due to Wear and Tear causing further damage, we may not settle the Repair Cost. No repair work should commence before we have approved it and issued a Repair Number.

- H4.** Please take your vehicle to any VAT registered Repairer of your choice, or an Approved Repairer. To locate an

Approved Repairer if available in your area please call 01254 355102.

- H5.** If you require recovery, you may use the Emergency 24/7 Roadside Assistance and Recovery. To use this service please telephone 0800 054 2174. Please refer to Section E for full details.
- H6. Repairs Within The European Union** – If your Vehicle suffers a breakdown whilst in the European Union, you will need to make your own recovery arrangements. At our discretion, we will reimburse you within Your Plan limits for a validated repair. You should retain any Parts removed from your Vehicle and post them to us for our inspection (if required) or alternatively submit photographs which clearly show each Part and what the fault(s) are. You agree to use your best efforts to provide such information when requested. You may follow the Out of Hours procedure as noted in Section I if this is more convenient for you to do so.

- H7. Tell Us About Any Intended Repairs Within 30 Days** – Ask your Repairer / Approved Repairer to log the information set out below with us through the 1Link Platform or our website www.warrantywise.co.uk/repairs. We must receive this information within 30 days of you first reporting a fault (as outlined in H2 above). Alternatively, your Repairer / Approved Repairer can call our Repairs Office on 01254 355102 and request an email or fax of an assessment form if preferred. When we receive the completed assessment form we will consider your repair request notified.

- (i) You and/or your Repairer / Approved Repairer are to notify us of the following information within 30 days of reporting a suspected fault:
- (i) Your Plan number (found on the Plan Schedule) and/or Your Vehicle registration or VIN number and your name and address;
- (ii) the Part(s) believed to be at fault including part numbers;

- (iii) the date the Part failed, and the mileage recorded on the Vehicle at that time;
 - (iv) an estimate for the total Repair Cost which itemises diagnostics, Part(s) and Labour;
 - (v) Details of your Vehicle's Service Handbook including service history if required;
 - (vi) A printed report of any On Board Diagnostics (OBD) information. Whilst illumination of a dashboard warning light or the registration of a fault code within the Vehicle's onboard diagnostic system may indicate a fault, it is not in itself proof of the Breakdown or Failure Due to Wear and Tear of any Part within the terms of Your Plan; and
 - (vii) Costs, where applicable, of any Roadside Assistance and Recovery, Replacement Vehicle Hire, Overnight Hotel and Travel Expenses. Please refer to Section E.
- (ii) When you or your Repairer / Approved Repairer notifies us of the faults on your car, you accept that we may correspond with your Repairer / Approved Repairer directly on your behalf in relation to repairs under Your Plan.
- (iii) **Diagnostic And Dismantling:** It is your own responsibility to authorise any preliminary diagnostics together with the dismantling of any Part of your Vehicle as may be required by your Repairer / Approved Repairer (or recommended by an Independent Vehicle Examiner) for an accurate determination of any Breakdown or Failure Due to Wear and Tear to be made. Your Plan will only pay for such diagnostic and dismantling work, if reasonable and if assessed by us as being within the cost of a valid repair, otherwise all such work is at your own risk and expense.
- H8.** On receipt of all information detailed in H7 above, we will confirm to you and your Repairer / Approved Repairer:
- (i) That the Part is included within the terms of Your Plan and whether we exercise our discretion and authorise the Repair Cost and issue a Repair Number or,
 - (ii) Whether we require your Vehicle or Part(s) to be examined, at our expense, by an Independent Vehicle Examiner prior to us making any firm decision or,
 - (iii) Whether we require your Vehicle, or a Part, at our expense, to be transported for examination to a Repairer / Approved Repairer of our choice.
- H9.** An examination of the Vehicle, any Part or documentation by an Independent Vehicle Examiner may be required before we authorise the Repair Cost. When this right is exercised we shall have no liability for any loss to you or arising from any delay your Repairer / Approved Repairer may have in commencing repairs. We may also recharge the cost of any attempted and failed inspection of your Vehicle against any subsequent authorised amount, due to your Repairer / Approved Repairer failing to present your Vehicle and/or any Part at a previously arranged time and date. The approximate cost of an average inspection is £90.00 including VAT.
- H10.** From time to time we may require additional supporting documentation in order to assist us in validating a repair such as the Vehicle's V5 logbook, insurance certificate, previous MoT's, recovery, vehicle hire, hotel, ferry or fuel receipts etc.
- H11.** If your Repairs are Completed at an Approved Repairer;
- (i) When your repairs are accepted and approved, we will issue the Repair Number and the authorised Repair Cost in writing via the 1Link Platform to the Approved Repairer. We will endeavour to settle the Repair Cost for any validated repair within the Single Repair Limit, subject to the terms and conditions of Your Plan within 7 days.
 - (ii) We will issue you with a confirmation letter which will itemise the authorised Repair Cost. You will have to settle any amounts over the authorised Repair Cost directly with the Approved Repairer.
 - (iii) In cases where we have transported your Vehicle or any Part to a Repairer / Approved Repairer of our choice to complete repairs, we will guarantee the repair for a period of 12 months or 10,000 miles (whichever occurs first).

H12. If Your Repairs Are Completed At Any Other Vat Registered Repairer;

- (i) If you are using your own Repairer you may have to settle their charges in full and then request the Repair Cost from us.
- (ii) We will issue you with a confirmation letter which will itemise the authorised Repair Cost and includes a section for you to complete. You must complete and return this form to us. You will have to settle any amounts over the authorised Repair Cost directly with the Repairer.
- (iii) In cases where we have transported your Vehicle or any Part to a Repairer / Approved Repairer of our choice to complete repairs, we will guarantee the repair for a period of 12 months or 10,000 miles (whichever occurs first).
 - (i) The completed and signed confirmation form accepting the authorised Repair Cost;
 - (ii) A copy of your Repairer's VAT invoice addressed to you c/o Warrantywise UK Limited, The Rocket Centre, 3 Trident Way, Blackburn, BB1 3NU. Your Repairer / Approved Repairer should include the Repair Number, your Vehicle registration number and Your Plan number on the invoice. If you do

not provide a Repairer's invoice addressed to Warrantywise UK Limited, we will not be able to reimburse you the VAT amount; and

- (iii) Any other supporting documentation we may have requested.
- (iv) On receipt of the above information, we will endeavour to settle the Repair Cost for any validated repair within the Single Repair Limit, subject to the terms and conditions of Your Plan within 7 days.

H13. If We Decline Your Repair Request:

- (i) We may decline your repair request and provide our reasons in writing (e.g. via 1Link Platform, email or letter) explaining why your repair request does not meet with the terms and conditions of Your Plan.

H14. Protection Against Fraud: To protect ourselves against fraudulent requests, we may from time to time, carry out more detailed checks and investigations which may delay our authorisation process. We apologise if this impacts your legitimate repair and ask you to cooperate with our requests for further information. We will not be liable for any loss of the use of your Vehicle or other expenses but do apologise for any inconvenience this may cause.

- (v) service or replace Parts when recommended or advised by your Repairer on any service, health check, MOT failure, advisory sheet or similar.

J4. Contribution – If you have elected to include a Contribution in Your Plan, the amount of the Contribution will be deducted from the Repair Cost. The Contribution amount can be found on Your Plan Schedule.

J5. Limit On Repair Cost – Your Plan will pay the Repair Cost up to the Single Repair Limit and in aggregate up to the Vehicle Value, subject to the terms and conditions herein. The Single Repair Limit includes all Repair Costs against the Level of Your Plan including, Additions, Vehicle Recovery, Vehicle

If your Vehicle or any subsequent repair is covered by any other similar plan, guarantee, warranty or goodwill settlement, we will only pay our reasonable share of any Repair Cost (if any). We may, at our discretion, appoint a Repairer of our own choice in order to repair, replace or recondition any Part of your Vehicle.

J6. Consequential Failure and Failure Of Multiple Parts – Consequential Failure (replacement of multiple parts) is included within Your Plan. This is where a component (not necessarily included in Your Plan) fails and causes the Breakdown of a covered Part or Parts (sometimes called the domino effect).

J7. Where there are instances of multiple faults with your Vehicle and there is no evidence of Consequential Failure, this Plan will not cover the total cost of fitting multiple Parts to your Vehicle. In such cases we will exercise our discretion and pay the average cost of the Parts and Labour requested, within the Level of Your Plan. The only exception is where the Level of Your Plan includes Parts Replaced in Pairs or the MoT Failure Addition.

J8. Where the Breakdown or Failure Due to Wear and Tear of a component Part within a complete unit is identified and repairable, we will authorise the Repair Cost associated with the repair, replacement or reconditioning of the Part within that unit.

J9. Where we authorise the Repair Cost for a benefit under one or more sections of Your Plan then this will be treated as a single repair within the Single Repair Limit and Vehicle Value shown on Your Plan Schedule.

J10. Plan Transfer – Providing that you have paid for Your Plan in full Your Plan may be transferred with your Vehicle directly to a new private owner (but not to a member of the motor trade). - (iii) Should your Vehicle be either; written off or stolen (proof required), replaced with a vehicle which is covered by manufacturer's warranty, replaced with a vehicle which is otherwise ineligible for cover then we will allow you a refund equal to any unexpired monetary value of Your Plan, less any previously authorised Repair Cost(s) after deducting the Cancellation Fee.
- (iv) Should You suffer from any; critical illness, death, change in circumstances forcing the sale of your Vehicle then we will allow you a refund equal to any unexpired monetary value of Your Plan, less any previously authorised Repair Cost(s) after deducting the Cancellation Fee.
