- (a) During the **period of your warranty** you are responsible for carrying out your own **vehicle** servicing as recommended by your **vehicle's** manufacturer using a **repairer** of your own choice and at your own cost and expense.
- (b) If you fail to service your **vehicle** during the **period of your warranty** any associated repair request will be refused and **your warranty** may be cancelled.
- (c) **Important** – If your **vehicle** has an incomplete (or no) previous service history it is important to have your **vehicle** servicing brought fully up to date immediately. If you are unable to provide proof of the correct previous servicing of your **vehicle**, we may decline any repair request you make in relation to any serviceable **part**.
- (d) Incorrect mileage reading – We will not meet any **repair cost** if your **vehicle's** mileage/distance reading at the time and date of any repair request is not supported by its previous service history and/or cannot be verified as correct or relied upon to be an accurate representation of your **vehicle's** total mileage. If this occurs your plan will be cancelled.
- (e) Service **parts** included – your plan will only pay for **service items** (such as lubricants and filters) which are required in order to complete **repairs** under a valid **repair**. However, if your **vehicle** is within 30 days and 1,000 miles of its next service you will be required to pay the cost of such **service items**.

2. Proof of servicing

- (a) When we need proof of servicing we will ask you or your **repairer** to provide:
 - (i) details held within the **vehicle's** integrated information centre, or
 - (ii) dated stamped entries in your **vehicle's** service book, or
 - (iii) dated VAT receipts or service schedules showing exactly which **service items** were checked or replaced on the previous service dates for the **part** in question.

3. Things not included

- (a) We will not pay the **repair cost** if you have failed to maintain your **vehicle** servicing up to date as recommended by your **vehicle's** manufacturer.

Section G

Repairs procedure.

1. To decide whether to pay the **repair cost** if your **vehicle** suffers a **breakdown** or **premature failure**, we may:

- (i) Request images of the **part**, or any similar **part** related to the repair request to determine the reason for failure of the **part**, and/or
- (ii) decide whether to inspect your **vehicle**, using an **independent vehicle examiner**.
- (iii) From time to time we may need you or your **repairer** to provide supporting documents, such as the V5 DVLA logbook, details of service history, MOT certificates, sale or purchase receipts and so on. We will not consider authorising any repairs until we receive this information.

2. How to report a fault

- (a) You or your **repairer** should report a fault to us as soon as possible (always within 7 days).
- (b) To report a fault, you or your **repairer**, should phone our Repairs Office on 01254 355102 or email repairsadmin@warrantywise.co.uk. You will need to quote your **vehicle** registration and **warranty number**.
- (c) If you do not report any suspected fault within 7 days this will result in us not authorising repairs even after a **breakdown** or **premature failure**.
- (d) We prefer that you use an **approved repairer** for any authorised repairs although you are free to use any VAT registered **repairer** of your choice. To contact your nearest **approved repairer** telephone our Repairs Office on 01254 355102 or email repairsadmin@warrantywise.co.uk.

3. Approved repairer

- (a) Within the UK we have a network of **approved repairers**.

- (b) We prefer that you use an **approved repairer** for any other repairs although you are free to use any VAT registered repair garage of your choice.

- (c) To contact your nearest **approved repairer** telephone our repairs office on 01254 355102 or email repairs@warrantywise.co.uk. You will need to quote your **vehicle** registration and **warranty number**.

4. Dashboard warning

- (a) If a dashboard warning indicates a fault with your **vehicle** you should stop driving and read the **manufacturer's service information**, you should only continue to drive if the **manufacturer's service information** says it is safe to do so.
- (b) A dashboard warning light or a fault code in your **vehicle's** on-board diagnostic (OBD) system may indicate a fault, but is not in itself proof of the **breakdown** or **premature failure** of any **part**, but should be investigated at the earliest opportunity and report the matter to us.
- (c) You should stop driving if there is any other indication of a problem, such as an unusual noise or vibration or if any oil, water or fluid is leaking from the **vehicle**. If you make a fault worse by continuing to drive your **vehicle**, we will not pay towards repairs.
- (d) If you become aware of a problem, if it is safe to do so, immediately take your **vehicle** to a **repairer** or contact us for the details of our nearest **approved repairer**.
- (e) We will not pay for any repairs until we have authorised them and given you written confirmation.

- (f) If your **vehicle** cannot be driven to a **repairer**, and you are away from your home, you may use our emergency 24/7 roadside assistance and recovery service. To use this service, phone 0800 054 2174. Please see section D, 'Ancillary services', for full details.

5. Information from your repairer

- (a) When you have taken your **vehicle** to a **repairer**, ask them to give us the information listed in (i) to (vii) below via our website (www.warrantywise.co.uk/repairs.) We must receive this information within 7 days of you first reporting a fault, alternatively, your **repairer** can call our Repairs Office on 01254 355102 and ask for an assessment form to be emailed to them:

- (ii) A description of the **part** believed to be at fault and if possible including part numbers,

- (v) Details of your **vehicle** service history,

- (b) When you or your **repairer** has provided all the information we need, if we authorise repairs, we will correspond with your **repairer** directly in relation to your **warranty**.
- (c) **IMPORTANT:** It is your responsibility to authorise any diagnostics and dismantling of your **vehicle** that is required to determine the cause of any problem. **Your warranty** will only pay for the diagnostics and dismantling if we agree that it can be included in the **repair cost**, otherwise you will have to pay for the work.

- (d) On receipt of the information set out above, we will confirm to you and your **repairer** if the cost of repairs are included in your **warranty** and, if appropriate, authorise the **repair cost**, or
- (i) if we wish to inspect your **vehicle**, or any **part** (at our expense) by an **independent vehicle examiner**, or

- (b) If your **repairer** fails to allow the inspection to go ahead at a previously arranged time and date, we may take the cost of the failed inspection off any **repair cost** we subsequently approve.
- (c) From time to time we may need you or your **repairer** to provide supporting documents, such as the V5 logbook, details of service history, MOT certificates, sale or purchase receipts. We will not authorise any repairs until we receive this information.

7. Authorisation document

If we authorise repairs, we will send you an authorisation document which will itemise the approved **repair cost**. You will be responsible for any amounts over and above the approved **repair cost**. The document includes a section for you to complete and return to us by email or post. By signing and returning the authorisation document, you confirm your acceptance of the authorised repair amount and acknowledge that we have completed our review of your repair request.
